Subject: Ag Categories and Ag spread sheets
Attachments: Ag update (Autosaved).docx; Categories of Comments for Ag and Ag related pesticides.docx; Coded Public Comments AG and AG Pesticides AH 7-2-14.xlsx

Allison,

Attached is a spreadsheet that includes my additions to the base spreadsheet regarding Ag and Ag/pesticides comments. I am going to get updated spreadsheets from other reviewers today.

I have also attached proposed "categories" for building summary responses to comments. We can discuss these if you wish. I know these don't fall in step with what you all have put together but I think they do align better with the pesticides issues. I am not sold either way on - going with these categories or following what you all have put together in your draft summary comments. I am open on this.

Lastly I have attached the outline for today's discussion on ag. If I have missed anything, please let me know.

Thanks.

Alan
